

ECODETERGENT CERTIFIED BY ECOCERT

The eco detergent for your ropes & harnesses

The BEAL Rope Cleaner is a nonaggressive eco detergent certified by Ecocert to clean ropes & harnesses. This formula was developed thanks to the traditional method of Marseille soap in cauldron and made from Coprah oil.

Key selling points

- Eco detergent certified by Ecocert
- Non-aggressive formula
- 100% of the total ingredients are from natural origin
- Does not contain animal fat, colouring or fragrance

Technical specifications

Ingredients	5%-15% : soap / also contains: water, glycerin, xanthan gum, oil
Certification	Detergent certified by ECOCERT Greenlife according
Origin	Made in France

Recommended use

Hand washing

- Dilute 10% of the "Rope Cleaner" in a volume of tepid water < 30°C.
- Wash the rope or harness with many passes of a Beal "Rope Brush".
- Rinse in clean water using a shower or hose.

Machine washing

- Slip the harness or the rope loosely into a pillowcase.
- Put 75 ml of "Rope Cleaner" into the machine regulated to 30°C maximum, without spin drying.

Drying

Drying should be done naturally, for example by hanging on a line, whilst avoiding exposure to bright sunlight.

Composition

5%-15% : soap
Also contains : water, glycerin, xanthan gum, oil
100 % of the total ingredients are from natural origin.
